

PREVIEW 2022

EURO LAMP ART®, ILLUMINAZIONE E FERRO BATTUTO DAL 1975

Euro Lamp Art®, lighting and wrought iron since 1975

Euro Lamp Art® -осветительные приборы и аксессуары из кованого железа с 1975 года.

Una storia di vita e di lavoro nata nel cuore di Firenze Euro Lamp Art nasce dalla passione e dalla creatività di Mario Scelfo che all'età di 12 anni iniziò il proprio apprendistato nei laboratori di San Frediano e Santo Spirito, due aree storiche di Firenze citate nei romanzi di Vasco Pratolini.

Dopo aver acquisito una grande esperienza nell'arte del ferro battuto, egli ha fondato la Euro Lamp Art, un'azienda che continua la tradizione delle botteghe storiche che producono lampade, lampadari, corpi illuminanti e arredi quali tavoli, sedie e altri oggetti in ferro battuto.

Seguendo la tradizione, la famiglia Scelfo dà importanza alla precisione del design prestando particolare attenzione ai dettagli e continuando la propria ricerca sulle forme originali.

L'ambiente di lavoro è familiare: la moglie, i figli collaborano con il personale e con le aziende che lavorano esclusivamente per Euro Lamp Art.

Nel corso degli anni l'azienda di Mario Scelfo si è sviluppata, rimanendo fedele alla produzione di oggetti originali e talvolta unici, consolidando le vendite in Italia e all'estero.

Oltre a partecipare a fiere ed eventi collegati, l'azienda fiorentina si è spesso occupata della fornitura di arredi per alberghi, ristoranti, e anche centri religiosi.

La nostra azienda fiorentina esporta verso Stati Uniti, Giappone, Emirati Arabi, Canada, Russia e territori CIS e in tutta Europa. Euro Lamp Art è presente alle più importanti fiere internazionali in tutto il mondo.

A life story and work history born in the heart of Florence Euro Lamp Art is the product of Mario Scelfo's passion and creativity which started at the age of 12 when he began his apprenticeship in the workshops of San Frediano and Santo Spirito, two historical areas of Florence remembered in Vasco Pratolini's novels. After having acquired a lot of experience in the art of wrought iron, he sets up Euro Lamp Art, a company which continues the working traditions of the historical workshops producing lamps, chandeliers, lighting fixtures, and furnishings such as tables, chairs and other objects in wrought iron. Following a life-long tradition Scelfo's family gives importance to the accuracy of the design paying particular attention to detail, as well as continuing his research into original forms.

This takes place in a family environment where his wife, sons participate as do his workers and the companies that work exclusively for Euro Lamp Art. Over the years Mario Scelfo's company has grown, remaining faithful to the production of original, and sometimes unique object whilst consolidating sales within Italy and abroad. As well as participating in fairs and related events, the Florentine company has often been involved in providing furnishings for hotels, restaurants, and even religious centers. Our Florentine company exports to the United States, Japan, Emirates, Canada, Russia and the CIS territories, and all over Europe.

Euro Lamp Art is present at the most important international exhibition all around the world.

История жизни и творчества, родившаяся в самом центре Флоренции. Страстная любовь Mario Scelfo к творчеству привела к созданию фабрики Euro Lamp Art®. В возрасте 12 лет Mario начал учиться в мастерских, находящихся в San Frediano и Santo Spirito - старинных кварталах Флоренции, упоминавшихся в исторических романах Vasco Pratolini. Здесь он приобрел большой опыт в искусствековки железа, и, впоследствии, основал свою компанию Euro Lamp Art®. На фабрике, по старинным традициям мастеров прошлого, создаются осветительные приборы, а так же мебель, столы, стулья и интерьерные аксессуары из кованого железа. Scelfo придает большое значение точности при создании проекта изделия, уделяет особое внимание деталям и активно продолжает разработки оригинальных форм. На фабрике, вместе с персоналом рабочих, сегодня трудится вся его семья, жена и дети. Euro Lamp Art® сотрудничает с поставщиками, работающими исключительно для этой компании. На протяжении многих лет компания развивалась, оставаясь верной производству оригинальных, а иногда уникальных предметов, постоянно увеличивая торговый оборот в Италии и за рубежом. Флорентийская фабрика выполняет заказы для интерьеров отелей, ресторанов и даже религиозных центров. Компания экспортирует свою продукцию в США, Японию, ОАЭ, Канаду, Россию, страны СНГ и Европы. Euro Lamp Art®, является постоянным участником известных международных выставок.

LA LUCE CHE VIENE DALL' ARTE DEL BELLO

The light that shines from the art of beauty

Свет, который исходит от настоящих произведений искусства

Ecco come le lampade, gli oggetti decorativi e gli arredi della nostra azienda diventano Euro Lamp Art.

Il segreto del nostro successo? Ferro battuto elegante e di qualità con preziosi cristalli, vetro di Murano e cristalli di Bohemia, decorazioni lavorate a sbalzo e motivi con fiori e foglie, rigorosamente fatti a mano secondo la tradizione fiorentina e dello stile Made in Italy. Questi sono gli elementi fondamentali dei prodotti realizzati da Euro Lamp Art. L'illuminazione rappresenta la nostra attività principale costituita da lampadari, applique, lampade da terra, plafoniere e lampade alogene. L'esperienza acquisita nella lavorazione del ferro battuto ha portato alla creazione di oggetti decorativi e arredi.

I prodotti vengono così creati: Mario Scelfo e più recentemente la figlia Laura disegnano personalmente i modelli; viene realizzato un prototipo di ogni modello che viene esposto in occasione delle fiere. La fase di produzione seguente si svolge presso l'azienda.

Il ferro battuto è lavorato secondo linee sia classiche che moderne.

Lo stile riflette l'attuale tendenza nell'arredamento d'interni in Italia: decorativo classico e contemporaneo. Una delle caratteristiche originali di Euro Lamp Art è la ricerca dell'armonia tra il ferro battuto e altri materiali preziosi, un matrimonio che dà vita ad una vasta gamma di modelli in cui il ferro finemente lavorato esalta la luminosità degli strass in cristallo e lo splendore della porcellana bianca, soprattutto con i colori e la vasta gamma di tonalità e sfumature di centinaia di modelli prodotti ogni anno nello stabilimento di Firenze. A volte i prodotti sono personalizzati e appositamente realizzati su disegni originali. Su ogni prodotto è applicata una targhetta in ferro con il nome dell'azienda in modo da fornire ai nostri clienti un prodotto originale Made in Italy. Il controllo qualità in ogni fase di produzione rappresenta uno dei nostri principali obiettivi. Ogni prodotto Euro Lamp Art è certificato CE per il mercato europeo e EAC per il mercato russo.

This is how the lamps and the decorative objects and furnishings of our company come into being Euro Lamp Art, the secret of our success? Fine elegant wrought iron with precious crystals and Murano glass and Bohemian crystals, as well as decoration, repoussé and with motifs composed of flowers and leaves, rigorously hand-made following the Florentine tradition and the made in Italy style. These are fundamental elements in the products made by Euro Lamp Art.

Lighting constitutes our principle concern in the form of chandeliers, sconces, floor lamps, ceiling fixtures and halogen. The experience gathered in the working of wrought iron has led to the creation of decorative objects and furnishings as well. The products are created in this way: Mario Scelfo and more recently his daughter Laura as well, personally design the models; a prototype of each model is made and exhibited in fairs. The production phase which follows takes place in their company.

The wrought iron is worked along both classical and modern lines.

The style reflects the trend present in Italian interior architecture: decorative classic and contemporary. One of the original features of Euro Lamp Art is the search for harmony between the wrought iron and other precious materials, a marriage that brings to life a vast range of models in which the finely worked iron sets off the luminosity of the crystal strass as well as the brilliancy of the white porcelain. And above all with the colors, and the vast range of tonalities and nuances of the hundreds of models produced each year in the Florence factory. At times the products are personalized and specially made on original designs.

Each product is marked with an iron plaque with the company name so as to give our clients an original made in Italy product.

Quality control during each phase of production represents one of our main objectives.

Each Eurolampart product has CE certification for the European market and EAC for the Russian market.

Каким образом светильники, предметы декора и мебель превращаются в произведения искусства от Euro Lamp Art? В чем секрет нашего успеха? Кованое железо- стильное и качественное с драгоценными кристаллами, муранское стекло и кристаллы, декорирование тиснением с использованием цветочных мотивов. Все сделано вручную, по традициям старинного флорентийского стиля и Made in Italy. Вот главные характеристики продукции, созданные руками Mario Scelfo владельца компании Euro Lamp Art. Фабрика Euro Lamp Art производит осветительные приборы

- люстры, бра, торшеры, потолочные светильники и галогенные лампы. Многолетний опыт работы с кованым железом подтолкнул фабрику к созданию аксессуаров и декоративной мебели. Продукция создается таким образом: Марио Scelfo, а в последнее время его дочь Лаура, разрабатывают модели, затем реализуется прототип каждой модели, который экспонируется на выставках

Производство артикулов происходит на фабрике. Предметы из кованого железа выполняются в классическом и современном стилях. Наш стиль отражает текущие тенденции интерьеров Италии: классический декоративный и современный. Компания Euro Lamp Art.

находится в постоянном поиске гармонии между такими разными материалами как железо, сверкающие стразы, и хрупкий великолепный белый фарфор, используется широкий спектр цветов и оттенков для сотен моделей реализующихся ежегодно на фабрике Флоренции. Выполняют также индивидуальные заказы по чертежам заказчиков. На каждом нашем продукте вы найдёте металлическую табличку, подтверждающую его реализацию на Euro Lamp Art, в Италии. Контроль качества на каждом этапе производства является одной из необходимых условий фабрики. Вся продукция от Euro Lamp Art. имеет сертификат для европейского рынка и сертификат ЕАС для русского рынка.

Abbiamo disegnato, costruito e depositato la linea Anelli - ricca, preziosa ed unica. Una nuova linea che utilizza materiali tradizionali con un tocco moderno che unisce tradizione e innovazione. Un incontro di cerchi, luce, metalli che si fondono con cristalli e preziose decorazioni, in cui oro e argento creano armonie tra colori e ombre. Creare "un oggetto di bellezza" è sempre stato l'obiettivo della società.

We designed, built and patented the line Anelli (rings) - rich, precious and unique. A new line that uses old materials with a modern flair blending tradition and innovation. A fusion of circles, light, interwoven molten metals with crystals, and precious ornaments where gold and silver create harmonies between colors and shadows. Composing "a thing of beauty" has always been the vision of the company.

A close-up photograph showing a person's hands applying gold leaf to a leaf. The person is wearing a dark, textured hat and a dark jacket. They are holding a small, crumpled piece of gold leaf in their right hand and using a small brush to apply it to a larger, crumpled piece of gold leaf that is already attached to a stem. The background is dark, and the lighting is focused on the gold leaf, highlighting its texture and color. The gold leaf has a warm, yellowish-gold hue and a crumpled, textured appearance. The person's hands are visible, with the right hand holding the gold leaf and the left hand using the brush. The overall scene is a detailed view of the process of applying gold leaf to a leaf.

SCULPTURE EQUESTRI REALIZZATE DA MARIO SCELFO

Equestrian sculptures made by Mario Scelfo
Скульптуры лошадей работы Mario Scelfo

Le Opere sono realizzate con le parti in ferro utilizzate per la costruzione degli articoli per illuminazione. La maggior parte dei cavalli sono a grandezza naturale.

All works have been made with the iron elements used for the construction of lighting products. Most of horses are full-size.

Произведения выполнены из железных элементов,используемых для изготовления светильников и люстр. Большая часть скульптур создана в натуральную величину. реализованы в натуральную величину.

“Battere il ferro con la certezza di creare con le mani e con l’ingegno oggetti che entreranno nelle case di tutto il mondo, suscitando emozione tra le diverse culture.”

Mario Scelfo

“Hammering iron having the certainty to create with hands and with ingenuity objects that will entry in all houses all around the world arousing emotions between different cultures.”

Mario Scelfo

“Мы куём железо с уверенностью в том, что задуманные нашей творческой мыслью и созданные нашими руками предметы войдут в дома по всему миру, вызывая самые теплые эмоции у представителей любой культуры.”

Mario Scelfo
